# GULSHAN KUMAR

Frontend Developer | Angular | React | TypeScript | AI Integration

Mohali, Punjab, India | 9877852349 | 819gkumar@gmail.com

## PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building production-grade web applications using Angular, React.js, TypeScript, and JavaScript. Skilled in enterprise applications, role-based access workflows, real-time dashboards, REST API integration, state management, and reusable component architecture. Hands-on experience integrating AI chatbot capabilities with Google Gemini API and Pinecone Vector Database, alongside payment gateway (Razorpay, Stripe) and Socket.io real-time feature integration. Immediate joiner, seeking to contribute frontend expertise to a growth-focused engineering team.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS/SASS

**Frameworks & Libraries:** Angular (Signals, Reactive Forms, Router, Material, RxJS, Standalone Components), React.js (Redux, Redux Toolkit, Context API, React Router, Hooks)

**State Management:** Redux Toolkit, Redux, Context API, Angular Signals

**AI & Data:** Google Gemini API, Pinecone Vector Database, AI Chatbot Integration

**UI Frameworks:** Tailwind CSS, Bootstrap, Material UI, Ant Design, Responsive Design

**APIs & Tools:** REST APIs, Socket.io, Payment Gateway Integration (Razorpay, Stripe), Git, GitHub, npm, Postman, Vercel, GitHub Actions

**Other:** PWA, Performance Optimization, Role-Based Access Control (RBAC), Reusable Component Architecture

## PROFESSIONAL EXPERIENCE

**Frontend Developer** **Feb 2026 – Aug 2026**

*Cybersify Cloud Computing* *Mohali, India*

- Developed and maintained the Tradies Diary enterprise platform using Angular, supporting Admin, Client, Architect, Supervisor, and Worker workflows across construction and project-management operations.
- Built reusable modules for Projects, Daily & Weekly Reports, Purchase Orders, Variations, RFIs, Selections, Site Activities, and Worker Logs with role-based access and real-time synchronization.
- Implemented dynamic forms, tables, filtering, sorting, and validation with reusable UI components and role-based access control across complex enterprise workflows.
- Integrated REST APIs for project management, reporting, approvals, worker activities, and real-time application workflows.
- Integrated an AI chatbot using Google Gemini API for conversational responses and Pinecone Vector Database for vector-based information retrieval.

**Frontend Developer** **Oct 2025 – Jan 2026**

*Bridging Technologies* *Mohali, India*

- Developed the PRISM AI platform for monitoring 7 in-house products using Angular and signal-based state management for real-time visualization and performance tracking.
- Built scalable dashboard modules for product metrics, reports, analytics, and real-time data synchronization.
- Implemented project/product tracking, data validation, and centralized monitoring workflows in collaboration with cross-functional teams.

**Frontend Developer** **Mar 2022 – Sep 2025**

*Bverse Labs Private Limited* *Mohali, India*

- Engineered 6+ production-grade React.js and Angular applications across healthcare, education, and hospitality domains, serving thousands of active users.

- Implemented Redux Toolkit for state management and optimized component rendering to improve frontend performance.
- Integrated Razorpay and Stripe payment gateways, RESTful APIs, third-party services, and Socket.io real-time features with validation and error handling.
- Translated Figma designs into responsive, pixel-accurate interfaces in close collaboration with UI/UX designers.

**Frontend Development Intern** **Oct 2021 – Feb 2022**

*Excellence Technology* *Mohali, India*

- Developed responsive web applications using HTML5, CSS3, JavaScript, and React.js; built reusable UI components with SCSS, Tailwind CSS, and Bootstrap.
- Used Git/GitHub for version control, code reviews, and collaborative development workflows.

## KEY PROJECTS

**TriviaWeb – Progressive Web App** | *React, Socket.io, Capacitor, PWA*

- Built an offline-capable trivia PWA with authentication, real-time challenges, admin dashboard, leaderboards, score calculation, and push notifications.

**Locum-Nurse Healthcare Portal** | *React, Socket.io, Redux*

- Developed a role-based healthcare job portal with nurse/organization dashboards, profile management, job posting/application workflows, and real-time status updates.

**Go-Abroad Study Platform** | *Angular, TypeScript, Razorpay*

- Built 4 role-based portals for Student, Consultant, Provider, and Admin; developed responsive dashboards and integrated Razorpay application-fee processing.

**EAH Supply Chain Platform** | *React, RESTful APIs*

- Built supplier onboarding and purchase-order workflows for procurement/inventory tracking with responsive order creation, tracking, and REST API integration.

## EDUCATION

**Bachelor of Arts (BA)** 2024

*Panjab University, Chandigarh*
